THE SYORY OF A WORKEN SITE.

The following extracts from lengthy reviews in prominent English journess, will enable the reader to form some idea of the character of the work.

From The Literary Gazette, May 23.

"A woman's story and a woman's book—"Out of the Depths"—will interest many and terrify some; but it can dispart none, for it is a book written with a tender and delicate hand, and even the fool things of which it treats, lose much of their revolting nature by the method of that treatment. It is the old, terrible tale of suffering, son, and shame; the old cry of angulah sweeping up from the abyses of human degradation and spiritual death; the eld plague spot laid have to the eyes of man.

"The book needed a salifful touch to render it readable by the general public. It needed to be written dearly and distinctly, but with extreme delicacy; more almostery than by direct description; suggesting rather than relating. These difficulties the authorizes has managed with all a woman's admirable act and judgment, and has succeeded in producing a very interesting lovel."

From The Examiner, June 3.

"The book is we hallow as to be recented character, no fee-

judgment, and has succeeded in producing a very interesting novel."

From The Examiner, June 3.

"This book is, we believe, as to its essential character, no fiction but the authentic story of a woman's descent into the lowest depths of degradation, and of her recovery into a pure state of fervent picty. Whatever may be its influence, the book is a remarkable rue, and is main features are too clearly authentic to escape public attention.

"It is a well-written volume, and coatsins many powerful seems, proving that the author is not unsequalized with the phases of life which he has sudertaken to describe. We can consciert if only recommend its careful person.
